Description of the furniture family

MKB lockers are very practical utility lockers used, among other things, for the distribution of health and safety articles, picking up clean clothes and returning dirty ones. Each locker is locked with an independent key and the common frame makes it possible to open all lockers at the same time. Person in charge of distribution of work and safety materials has access to all lockers so as to control stock levels and replenish them regularly, while each employee retrieves his or her allocation individually. The main advantage of MKB cabinets is a significant reduction in consumption of OHS materials and thus reduction in costs. The module with a holder for a bag for dirty clothes enables dirty clothes to be easily dropped in through the drop opening in the door. The modular construction of MKB lockers allow for their free configuration and gives the possibility to combine them with other social cabinets from our offer. Applied technology of surface preparation through the process of zirconium phosphating and zirconium conversion of metal provides very good paint adhesion and proper anti-corrosion protection. Used powder coating in accordance with the regulation (WE) 1272/2008 (CLP) have not been classified as hazardous to health. Lockers are backed by a 5 years warranty!

Possibility to mount legs	Yes
Possibility to mount the base	Yes
Mounting holes in the side walls for screwing	Yes
Mounting holes in the rear wall for screwing	Yes
Central frame	Yes

1. The given dimensions are dimensions without the lock protruding beyond the outline of the cabinet. 2. The given dimensions may differ from the actual ones by ± 5 mm. 3. We reserve the right to make structural changes in the products, while maintaining their usability, which may slightly affect their appearance. 4. In the case of built-ins where exact dimensions are important (e.g. inserting cabinets into niches, enclosing), please consult the dimensions given in the price list with us. This table is for color representation only. A more accurate color reproduction is included in the full RAL color palette. We reserve the possibility of slight deviations from the given colors, which does not entitle to submit complaints. We also reserve the right to make structural changes in the products, while maintaining the usability, which may slightly affect their appearance. The colors of the products in the photos and visualizations in the catalog are for illustrative purposes only and may differ from the colors of the products offered in reality.
