

3-COMPARTMENT SMS SCHOOL LOCKER

Description

SMS school lockers allow students to store books, a second breakfast, outerwear and shoes. They ensure that they only take what they need for lessons. The door limiter provides comfort when multiple people are using several lockers at the same time (e.g. during breaks). Door opening angle is 90°, so that the open door does not restrict the space for the user standing next to it. In addition, the opening limiter protects the reinforced doors from break-in attempts, making the cabinets safer and less damaging.

The furniture does not need to be assembled, giving it strength and stability. As standard, the lockers are available in 16 colours at no extra charge. It is possible to have the doors printed with your favourite and original graphics.

| sMS | SMS school lockers are intended for young people over the age of 12. | | |

| | | | | | | | | | | | | | |
| | Additional equipment Slanted top available at extra cost. Helps to keep it clean, additionally 22° top prevents unwanted items from being left on top of the locker. | | | | | | | | | | | | |
| | A base with slanted feet is available at an extra charge. The feet are adjustable from 0-10 mm, allowing the locker to be levelled. | | | | | | | | | | | | |
| | A base with seat is available at an extra charge. The 0-10 mm adjustable feet help to level, raise and stabilise the locker. In addition to the seating, the bases offer the possibility of fitting a shoe shelf. Both wooden and PVC slats are available. | | | | | | | | | | | | |
| | A shoe shelf at the base is available at an extra charge. This provides additional storage space for footwear. The perforated shelf allows water to drain off and speeds up the drying of shoes. | | | | | | | | | | | | |

Description of markings

5-year warranty shows that we are confident in our products due to high quality workmanship and reliability. We want you to feel safe and satisfied with working with us.

Our perforation is well thought-out, delicate and subtle. It guarantees adequate ventilation and fits perfectly into modern workplaces.

We offer 16 RAL colours as standard. Thanks to this our furniture can be matched to any interior.

ISO certification confirms compliance with standards and the high quality of products and services we offer.

Zircon technology provides very good corrosion protection for our products. In addition, this process improves paint adhesion.

We test our products in our own laboratory, the Centre for Research and Development (CBR). This ensures that the tests are comprehensive and carried out correctly.
