

SKA 30 CABINETS FOR STORING MOBILE PHONES

Description

The SKA phone locker is a modern solution for schools that want to keep things tidy and help pupils focus. It can hold 30 smartphones, each safely placed in special foam inserts that protect them from damage. The strong, welded steel frame, clear plexiglass door, and key lock give full control over the stored phones.

The locker is quick and easy to install – it only takes a few moments to hang it on the wall, and all the necessary parts are included. You can choose from 16 RAL colours at no extra cost, so the Malow locker will match any space. It also comes with a 10-year guarantee, making it a smart long-term investment.

Features

- WSSv
- 10-year guarantee under Malow's warranty terms.
 - Locker designed to store 30 mobile phones at the same time.
 - For use in dry, ventilated indoor areas.
 - Meant to be mounted on a wall.
 - Made from steel sheet, protected with zirconium conversion and powder-coated.
 - The body and shelves are made from 0.6–0.8 mm thick steel.
 - The doors are made from 1.5 mm thick steel and include a plexiglass insert.
 - Comes with a cylinder lock in a master key system and 2 keys.
 - Inside the locker there are 2 fixed shelves. The shelves and bottom have special foam inserts (anthracite colour) to safely hold phones.
 - Back holes allow easy wall mounting. All fixing parts are included.
 - Available in 16 RAL colours at no extra cost.
 - The welded construction is reinforced with extra welds to make it stronger and more stable.

Metal door with a plexiglass insert.

Soft dividers for phones made from safe foam.

Each lock comes with two keys included.

The cabinet can be mounted on a wall or placed on a countertop.

Oznaczenia

A 10-year guarantee shows that we are confident in our products thanks to their high quality and reliability. We want you to feel secure and fully satisfied when working with us.

We offer 16 RAL colours as standard, allowing our furniture to match any interior.

The ISO certificate confirms that we follow standards and offer high-quality products and services.

The zirconium coating technology we use provides excellent anti-corrosion protection for the cabinets. Additionally, this process improves paint adhesion.
