

Description

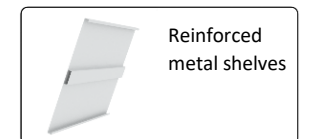

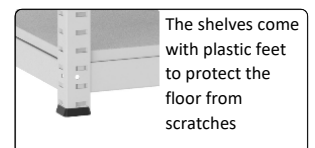

RMM is a universal, durable and solid storage rack. The construction made of thick sheet metal allows for a maximum shelf load of 100kg. RMM bolted shelves are designed for self-assembly. The reinforced shelves, made of 0.8mm thick sheet metal, can be adjusted every 60mm to tailor their height to the stored items. The legs of the shelving unit are equipped with plastic feet to protect the floor from scratches.

RMM shelves find applications in stores, wholesale outlets, warehouses, archives, as well as utility rooms. The shelves are available in 16 standard colors at no additional cost.

Features

RMM Bolted shelves

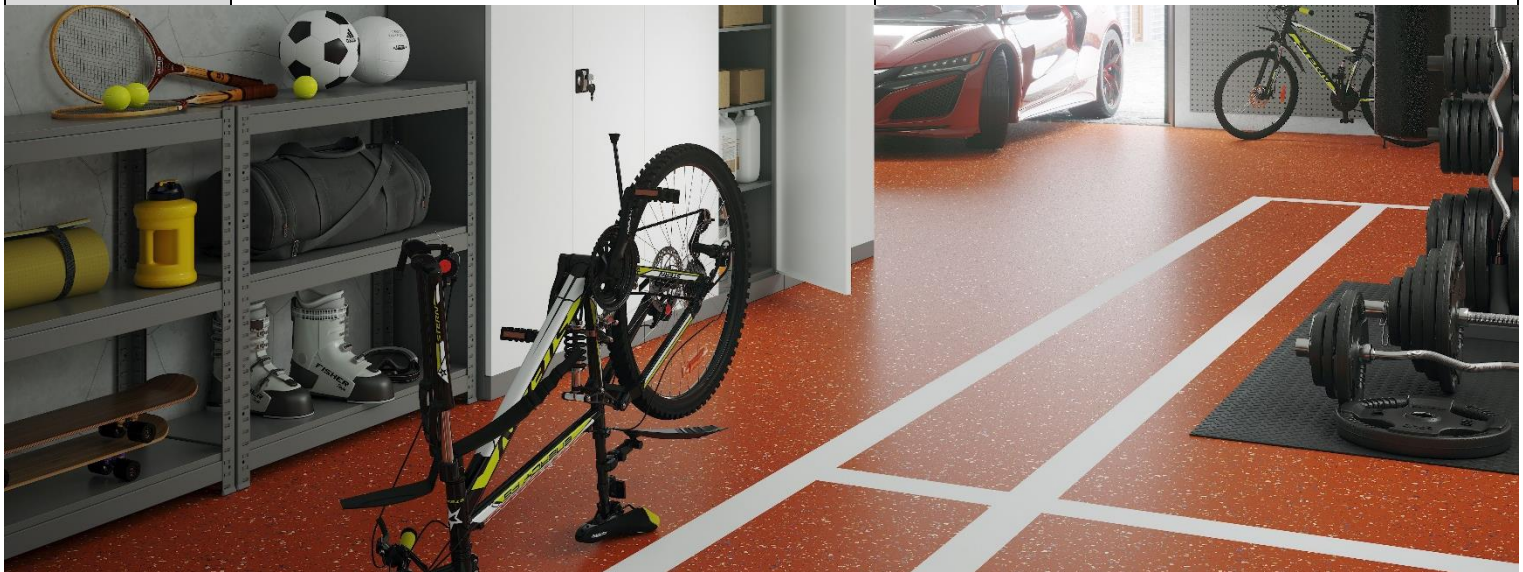

- 5-year warranty (according to the warranty for Malow products).
- Racks for storage in dry and ventilated internal spaces.
- RMM racks are for self-assembly.
- Made of sheet metal. 0.8-1.5 mm.
- Reinforced 0.8 mm thick metal shelves, adjustable every 60 mm.
- Maximum allowable shelf load up to 100 kg.
- Reinforced metal shelves are adjustable every 60 mm.
- Available in 16 colours with the RAL palette at no extra charge.
- The storage racks have holes in the back for fixing to the wall and holes in the side walls for fixing together.
- The storage racks are made of steel protected by zirconium conversion method, painted with powder paint.

Oznaczenia

The 5-year warranty proves that we are confident in our products due to the high quality of execution and their reliability. We want you to feel safe and be satisfied with the cooperation with us.

We offer 16 colours from the RAL palette - as standard. Therefore our furniture fits to any interior

The ISO certificate confirms compliance with standards and the high quality of products and services we offer.

The use of zirconium coating technology provides a very good protection against corrosion. Additionally, this process improves paint adhesion

We test lockers in our own laboratory, the Research and Development Center (CBR). This ensures that the tests are comprehensive and carried out correctly.

Description

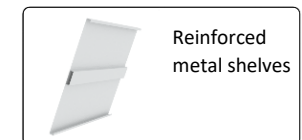

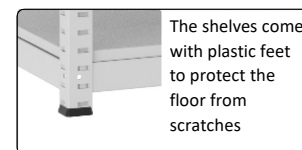

RMM is a universal, durable and solid storage rack. The metal construction allows for maximum allowable shelf load up to 100 kg. Fixed to the wall or fixed with their backs together, the maximum allowable shelf load rise up up to 200 kg. The assembly by "push-in" simplifies and shortens the assembly time. Reinforcement metal shelves 0.8 mm thick can be adjusted every 30 mm. Plastic feet on the legs protect the surface against scratching. RMM racks can be equipped with limiters and movable partitions, which will prevent the binders from falling over.

RMM racks are common in shops, wholesalers, warehouses, archives and utility rooms. As standard, the racks are available in 16 colours at no extra charge.

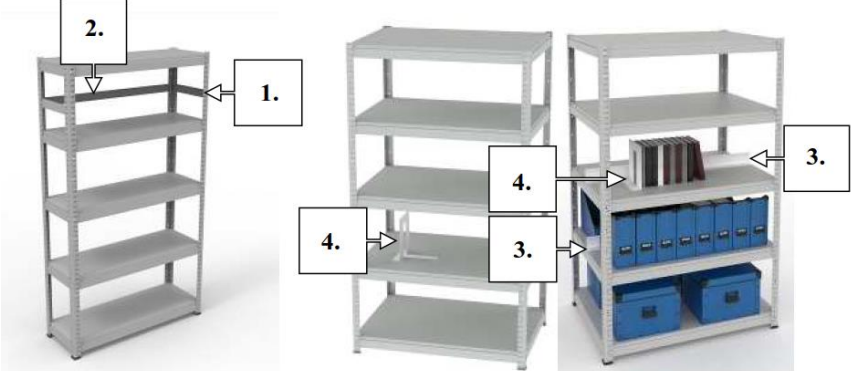

Features

RMM 500 mm deep

- 5-year warranty (according to the warranty for Malow products).
- Racks for storage in dry and ventilated internal spaces.
- RMM racks are for self-assembly.
- Made of sheet metal. 0.8-1.5 mm.
- Reinforced 0.8 mm thick metal shelves, adjustable every 30 mm.
- Maximum allowable shelf load up to 100 kg. When fixed to the wall or fixed with their backs together, the maximum allowable shelf load rise up to 200 kg.
- Reinforced metal shelves are adjustable every 30 mm.
- Available in 16 colours with the RAL palette at no extra charge.
- The lockers have holes in the back for fixing to the wall and holes in the side walls for fixing together.
- Welded construction.
- The lockers are made of steel protected by zirconium conversion method, painted with powder paint.
- Additional equipment in the form of limiters and partitions is available.
