

TABLET CHARGING TROLLEY WNT 33QC WITH UNIVERSAL USB-C PORTS

DESCRIPTION

A tablet charging trolley with a battery charging function is designed for storing and easily charging tablets. It is ideal for schools, universities, libraries, and conference rooms—essentially anywhere there is a need for safe storage and simultaneous charging of tablets. The trolley is equipped with USB-C ports, in accordance with the EU directive, to help achieve environmental goals and reduce usage costs.

The trolley features doors secured with a 2-point lock, ensuring the protection of its contents. With 4 swivel wheels, the trolley can be easily moved around. The WNT 33QC model allows simultaneous storage and charging of up to 32 tablets and 1 laptop. Safety during charging is ensured by a fuse and dedicated USB-C ports. Perforations on the trolleys casing ensure proper air circulation inside.

The trolley is topped with an 18 mm thick chipboard, available in 6 different veneer colors. Metal inserts finished with a rubber band protect the tablets from scratches. USB Type-C is the new standard in charging. The EU is introducing USB-C as the standard charger for all mobile devices by the end of 2024.

FEATURES

WNT
33QC

- 5-Year Warranty: Covered under the warranty terms for Malow products.
- Made from sheet metal with a thickness ranging from 0.8 mm to 2 mm.

Oznaczenia

5-year warranty shows that we are confident in our products due to high quality workmanship and reliability. We want you to feel safe and satisfied with working with us.

PZH approval is granted for a product that does not in any way adversely affect health or the environment.

We offer 16 RAL colours as standard. Thanks to this our furniture can be matched to any interior.

Our perforation is thoughtfully designed, delicate, and subtle. It ensures proper ventilation and perfectly fits into modern workplaces

ISO certification confirms compliance with standards and the high quality of products and services we offer.

Zircon technology provides very good corrosion protection for our products. In addition, this process improves paint adhesion.

We test our products in our own laboratory, the Centre for Research and Development (CBR).

Our products meet TÜV Rheinland standards, which is confirmed by the GS mark.
