

WSSv PHONE CHARGING CABINETS

USB SOCKETS

Description

WSSv lockers are designed for storing small personal items and charging mobile phones. Two types of electrical sockets are available as standard (2x USB C OR 1x USB C + 1x USB A). An electrical socket is located on the back wall of each box. WSSv cabinets can be hung on the wall. The advantage of this solution is convenient access to compartments, and the depth of the cabinet (260 mm) allows it to be easily arranged on any wall. The cabinet is made of 1.5-2 mm thick steel sheet, and the bottom of the box is lined with material. Each box is equipped with a solid lock. The hinges are hidden, thanks to which the telephone cabinet looks aesthetic and modern. The WSSv wardrobe is available in a version with metal doors and plexiglass inserts.

The furniture does not require assembly, which makes it more durable and stable. As standard, the cabinets are available in 16 colors at no extra charge.

Features

- WSSv
- 2 years warranty for electrical equipment and 5 years warranty for the body (according to the warranty terms for Malow products).
 - Cabinets intended for storing and charging mobile phones or personal items in dry and ventilated internal rooms.
 - It is possible to connect cabinets in series. As standard, the cabinets are delivered without power cables. One energy source can power up to 50 caches.
 - Cabinets made of cold-rolled steel sheet with a thickness of 1.5 – 2 mm. Sheet metal protected with zirconium conversion method, powder coated.
 - The bottom of each box is lined with material protecting the stored items.
 - On the back wall of each box there is a 2xUSB C OR 1xUSB C + 1xUSB A electrical socket.
 - The door is equipped with a hidden hinge, which positively affects the aesthetics of the cabinet.
 - As standard, the boxes are numbered.
 - Doors available in two variants: steel OR plexiglass.
 - Standard cylinder lock in the master system with 2 keys.
 - Mounting elements are included with the cabinet.
 - Available in 16 colors from the RAL palette at no extra charge.

The cabinets are available with metal OR plexiglass doors.

2x USB C
OR
USB A+C

Two keys are included for each lock.

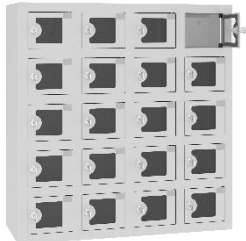

Possibility of powering the cabinets in series by connecting the cabinets with a cable. A maximum of 50 caches can be powered from one source.

OR

Each WSSv cabinet is standardly equipped with a charging socket. The choices are: USB C + USB A OR 2x USB C

The cabinets are prepared for series connection. Connecting the cabinets allows you to use one power source. A maximum of 50 boxes can be connected to one power source.

Description of markings

A 5-year warranty proves that we are confident in our products due to their high quality and reliability. We want you to feel safe and satisfied with your cooperation with us.

As standard, we offer 16 colours from the RAL palette. Thanks to this, our furniture can be adapted to any interior.

The ISO certificate confirms compliance with standards and the high quality of the products and services we offer.

The zirconia technology used ensures very good anti-corrosion protection of the cabinets. Additionally, this process improves paint adhesion.

We test the cabinets in our own laboratory - the Research and Development Center (CBR).
