

# CABINETS WITH IP 54 PROOF CLASS FOR CHARGING BATTERIES OF BIKES AND SCOOTERS

WITH ELECTRICITY

Description

SZLB cabinets are designed for charging bicycle and scooter batteries. They can be used both inside and outside buildings. They have a cylindrical lock with IP65 tightness class. The compartments are spacious enough to simultaneously charge the battery and store e.g. bicycle tools and accessories. Each compartment has an electrical socket with IP44 tightness class.

The power cord and resettable fuse ensure comfort and safety. Adjustable feet allow you to level the cabinet, and the handles on the legs allow you to attach SZLB to the ground. Connectors for mounting to the ground are supplied with the cabinet. Screws and plugs are not included in the set. The roof additionally protects the cabinet from rain. The hinges are hidden, thanks to which SZLB cabinets look modern.

SZLB cabinets are welded and welded, so they do not require assembly. The construction is stable and durable. Made of galvanized sheet metal, painted with primer and polyester paint for outdoor use.
