WNL +
Trolleys
for charging laptops

Description

The Laptop Trolley with Battery Charging is used to store and easily transport laptops. It works perfectly in schools, universities, libraries or conference rooms - wherever there is a need for safe storage and simultaneous charging of laptops.The contents of the cart are protected by a reinforced door equipped with a 2-point lock. Moving the cart is facilitated by 4 swivel wheels, including 2 with a lock, and handy side handles. The WNL series carts allow for the simultaneous storage and charging of 10 to 30 laptops.

Safety during charging is ensured by a fuse and a sequential charging module, which reduces the risk of overloading the installation. **In accordance with the current EU standard, it is possible to purchase a cart equipped with an electrical socket with additional USB type A and C ports**, which allows even wider use - for example, for charging tablets, smartphones and other mobile devices.

Features

WNL +

- 10-year warranty (according to Malow product warranty terms and conditions).
- The cart is made of 0,8 - 2 mm thick sheet metal.
- Carts designed to store and charge laptops thanks to outlets at each compartment.

Accessory equipment

Surge protection and router/switch sockets allow easy connection to the network and provide surge protection to safeguard equipment stored inside.

Hidden under the countertop, the router is an ideal solution for those who appreciate aesthetics and functionality. Thanks to the access point and LAN, WAN and USB sockets, it is possible to create or expand an Internet network in a simple and convenient way. With no visible cables or devices, you gain not only high-speed Internet, but also an elegant and neat interior.

The carts are equipped with 1 LAN switch with RJ45 ports for each column. The switch allows devices to quickly and seamlessly connect to the network.

With a detachable cable, the WNL+ cabinet is not only convenient to store and transport, but also more functional. You can easily replace the cable if the original one happens to be damaged or you need a longer one.

Signs

The 10-year warranty proves that we are confident in our products due to their high quality workmanship and reliability. We want you to feel safe and satisfied with working with us.

ISO certification confirms compliance with standards and the high quality of the products and services we offer.

The PZH approval is granted for a product that does not negatively affect health and the environment in any way.
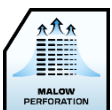

The zirconia technology used provides very good corrosion protection for cabinets. In addition, this process improves the adhesion of powder paint.

As standard, we offer 16 colors from the RAL palette. This allows our furniture to match any interior.

We test the cabinets in our own laboratory - the Center for Research and Development (CBR).

Our perforation is thoughtful, delicate and subtle. It guarantees adequate ventilation and fits perfectly into modern workplaces.
