

SUM 320 W ST WITH LAMINATE DOOR

Description

The **SUM 320 W ST cabinet with laminate door** combines the durability of metal with the elegance of natural wood, offering a practical solution for demanding spaces. It is available in three versatile wood veneer options: **Tek**, **Oak** and **Walnut**, which imitate the texture and warmth of real wood.

The laminate, with its neutral colours and subtle texture, blends perfectly with both traditional and modern interiors. The natural shades of the wood-like laminates make it easy to match the wardrobe to a variety of design styles, emphasising the character of any room. The SUM 320 W ST will prove its worth in offices, staff changing rooms, gyms, fitness clubs, wherever a combination of practicality and timeless design is important. It is a solution that combines minimalist form, functionality and elegance, perfectly matching the needs of professional spaces.

NOTE !!!	Please specify the type of laminate chosen when ordering. On request, laminate is available for other furniture in the offer.		

- **Laminate resistant to traditional dirt**, including stains or deposits, maintaining an aesthetic appearance even with intensive use.
- **Resistant to cleaning agents and disinfectants** - the surface is not damaged by regular cleaning or the use of disinfectants.
- **Easy to maintain - requires no specialised maintenance.**
- **Hygienic safety** - the possibility of frequent disinfection without the risk of destroying the veneer, which is crucial in medical or catering establishments.
- **Durability of structure and colour** - the laminate will not fade, crack or deform under the influence of external factors.

Elegance going hand in hand with functionality - the ideal choice for demanding spaces.

Signs

The 10-year guarantee shows that we are confident in our products due to the high quality of their workmanship and their reliability. We want you to feel safe and satisfied in working with us.

The PZH approval is awarded to a product that does not in any way adversely affect health or the environment.

We offer 16 RAL colours as standard. This allows our furniture to match any interior.

The ISO certification confirms compliance with standards and the high quality of the products and services we offer.

The zirconium plating technology used provides very good corrosion protection for the cabinets. In addition, this process improves paint adhesion.

We test the cabinets in our own laboratory - the Centre for Research and Development (CBR).
