

# WNT 33Qv/QRv tablet trolley

Trolley front

UV-C lamp in the doors

WNT Qv - WNL 0917050912  
WNT QRv - WNL 0917051312

## Description:

In the current epidemiological situation in the world, maintaining cleanliness is particularly important including mobile devices disinfection. It is priority to disinfect hands, surfaces that we touch and also mobile devices (especially when they are used by few people). Not all surfaces and materials can be cleaned with disinfectant. Especially electronic hardware is sensitive for an alcohol based liquids. In order to safe clean it out of viruses and bacteria we have developed WNT 33Qv tablet trolley with the ability to disinfect the devices stored in it using UV-C radiation. Disinfection lamp kills microorganisms and reduces the risk of infection with coronavirus and other diseases.

The WNT33Qv trolley will be perfect for schools, universities, libraries, conference rooms, etc. It is the perfect solution everywhere, where is a need for safe storage, simultaneous charging and maintaining a sanitary regime.

### What is the result of UV-C disinfecting?

- effective and ecological, no chemicals
- long durability thanks to a special coating

## Characteristics:

- numbered metal partitions for storing 32 tablets
- an additional shelf (100x340x520mm) with 2 sockets for charging a laptop
- four wheels with a diameter of 100 mm and a load capacity of 150 kg per wheel, including two wheels with brake
- the rolling surface of the wheels made of non-marking surface rubber
- the lower edges of the trolley are protected by rubber corners
- cabinet doors closed with a safety lock in two points
- trolley covered with 18 mm worktop with cut corners, made of melamine
- the body is made in welding technology, has vents for air circulation
- The 3-meter connecting cable is detachable
- the trolley has a handle - a cable reel allowing winding the power cable
- integrated disinfecting lamp with replaceable Osram Puritec HNS 8W light source, separate lamp module connector, timer, protection against glare of UV light
- after opening the UV-C lamp is automatically turned off

### Specification:

- 32 partitions for a tablet max dimensions of 24x310x295 mm (about 13")
- shelf for a teacher's laptop max 120x340x520 mm equipped with two 230 V AC sockets
- 24 x USB-A AiPower DC 5V 9.6A (Max) ports, each 2.4A (Max)
- 12 x USB-A Qualcomm Quick Charge ports 3.0 3.6V-6.5V 3A | 6.5V-9V 2A | 9V-12V 1.5A
- **optional Access point for wireless communication (QR version) - surcharge**
- maximum power of the trolley 1380 W
- overload protection (automatic fuse)

### Dimensions:

- height: 1050 mm
- width: 730 mm
- depth: 440 mm

It is possible to adjust the dimensions to individual needs.
